SURVEILLANCE DATA REQUEST FORM

Please note the Bureau of Infectious Disease employs the following data suppression rules unless a specialized agreement is in place to release more identifiable information:
1. If the population is > 50,000 the case count data may be released regardless of size
2. If the population is < 50,000, the case count must be 5 or greater in order to report out a specific value, otherwise, see #3.
3. If the population is < 50,000, and the case count is 4 or less, the case count must be reported as <5 regardless of the actual number
4. 0 cases may be reported regardless of population size
For population numbers, refer to www.census.gov

| Name: | 
| Affiliation: | 
| Address: | 
| Telephone: | 
| Fax: | 
| Email: | 
| Requested completion date:  
(Allow a minimum of two weeks to process a request.) | 
| Reason for Request: | 

| Disease(s) Requested:  
(See attached list on page two for a listing of diseases for which surveillance data is available) | 
| Time period of interest:  
(e.g., 2011-2013) | 
| Geographic location:  
(Keep in mind the data suppression rules above if you are requesting town-specific data.) | 
| ☐ Statewide | 
| ☐ County-specific  
Specify county or counties of interest: | 
| ☐ Town-specific  
Specify town or towns of interest (keeping in mind suppression rules above): |
Please check conditions (s) of interest.

- Amebiasis
- Anthrax
- Chikungunya virus infection
- Powassan virus infection
- Babesiosis
- Borrelia miyamotoi infection
- Botulism
- Brucellosis
- Calicivirus/Norovirus infection
- Campylobacteriosis
- Chlamydia
- Creutzfeldt-Jakob disease
- Cryptococcus
- Cryptosporidiosis
- Campylobacteriosis
- Cyclosporiasis
- Dengue fever
- Diphtheria
- Eastern equine encephalitis (EEE)
- Ehrlichiosis
- Encephalitis
- Enterovirus infection
- Giardiasis
- Glanders
- Gonorrhea
- Group A streptococcus infection
- Group B streptococcus infection
- Hansen's disease (Leprosy)
- Hantavirus infection
- Hemolytic uremic syndrome (HUS)
- Hepatitis A
- Hepatitis B
- Hepatitis C
- Hepatitis D
- Hepatitis E
- Haemophilus influenzae infection
- HIV
- Human granulocytic anaplasmosis
- Influenza
- Legionellosis
- Leptospirosis
- Listeriallosis
- Lyme disease
- Lymphocytic choriomeningitis
- Malaria
- Measles
- Melioidosis
- Meningococcal disease
- Monkeypox
- Mumps
- Novel Coronavirus (SARS, MERS, etc.)
- Pertussis
- Plague
- Polio
- Psittacosis
- Q fever
- Rabies - human
- Rickettsial pox
- Rocky Mountain spotted fever
- Rubella
- Salmonellosis
- Shiga toxin producing organism infection (e.g., E. coli O157:H7)
- Shigellosis
- Streptococcus pneumoniae infection
- Syphilis
- Tetanus
- Trichinellosis
- Tularemia
- Typhus fever
- Varicella virus infection (Chicken pox)
- Venezuelan equine encephalitis
- Vibriosis
- Viral hemorrhagic fevers (e.g., Ebola)
- Viral meningitis
- West Nile virus (WNV) infection
- Yellow fever
- Yersiniosis

If you are interested in an infectious disease not shown, please call 617-983-6801 to inquire about data availability.

Surveillance reports for STDs and HIV/AIDS may be found online: http://www.mass.gov/eohhs/gov/departments/dph/programs/id/hiv/idsurveillance/public-health-cdc-hiv-aids-surveillance-std-report.html

Surveillance reports for tuberculosis may be found online: http://www.mass.gov/eohhs/gov/departments/dph/programs/id/tb/public-health-cdc-tb-statistics.html

Other selected disease specific surveillance reports may be found online: http://www.mass.gov/eohhs/gov/departments/dph/programs/id/epidemiology/
